

Modbus communication to enable full data retrieval of kWh for Graphic analysis and Billing

The screenshot shows a Utility Invoice form for AUTOMETERS. The meter ID is D000044. The form includes fields for Client Name (28-34-35-36 Road), Client Address (123 Long Road), and a table for Meter To. The table has columns for Meter To, Client Address, and Provision. The form also includes a section for 'DATA EXTRACTION FROM H01' with instructions: '1. Remove card only when amber light (07) is on (not flashing). 2. Insert card any time.'
